SEDATION

- We have treated you under conscious sedation, providing you with the most relaxing, comfortable experience possible.
- Patients may be asleep or may be alert when he/she leaves. Attend to either the alert or sleepy patient in the same manner don't trust him/her alone.
- Hold the patient's arm when walking especially up/down the stairs and entering or exiting vehicles.
- It is normal to feel tired after sedation and sleep for several hours. You may only have a vague recollection of what transpired.
- Remember, do not drive a vehicle, operate machinery or make any important decisions for 24 hours.
- Remember to drink plenty of fluids and eat soft foods that are easy to chew and digest.
- Please review the written instructions and remember to take any prescribed medications. Please call at any time with any questions.
- A responsible person should be with the patient until he/she has fully recovered from the effects of the sedation

Responsible Party | _____

(Patient's Name)

If the patient is having difficulty breathing contact EMS (911)
